

## 14.2.4 Lab: Install an All-in-one Printer/Scanner

### Introduction

Print and complete this lab.

In this lab, you will check the Windows XP Hardware Compatibility List (HCL) for your All-in-one Printer/Scanner, install the all-in-one printer/scanner, upgrade the driver and any associated software, and test the printer and scanner.

### Recommended Equipment

- A computer with the Windows XP operating system
- An available USB port on the computer
- All-in-one Printer/Scanner
- Printer/scanner installation CD
- An Internet connection

### Step 1

Open Internet Explorer.

Search the Microsoft Website for “windows xp hcl”.

Choose “Windows XP”.

Choose “Devices”.

Choose the processor type used by the computer.

Select “Printers & Scanners”.

Choose “Start”.

Search the HCL for your All-in-one Printer/Scanner.

What Company manufactures this component?

For what operating system(s) was this component designed?

For what operating system(s) has this component been certified?

### Step 2

Carefully unpack and assemble the printer/scanner if necessary. Follow the manufacturer’s instructions.

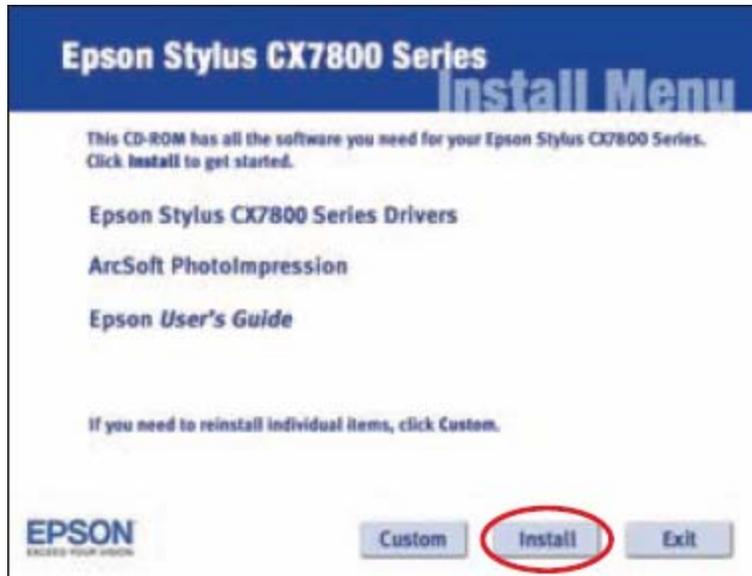

Plug the printer/scanner into a grounded wall outlet and turn on the unit. Do not attach the USB cable to the computer until instructed to do so.

### Step 3

Insert the manufacturer's software CD into the optical drive. If the installation program does not start automatically, select **Start > My Computer**, and then double-click the **Epson CD-ROM** icon.

The "Install Menu" window appears.

Click **Install**.

Connect the USB cable when instructed.

The “License Agreement” window appears.

Click **Yes**.

The “Epson Product Registration” window appears.

Click **Cancel**.

## Step 4

Go to the All-in-one Printer/Scanner manufacturer's website and download the newest drivers for the All-in-one Printer/Scanner.

Click **Start**, and then right-click **My Computer**. Choose **Manage > Device Manager**.

The Device Manager appears in the right column.

Double-click the **All-in-one Printer/Scanner**, and then select the **Driver tab**.

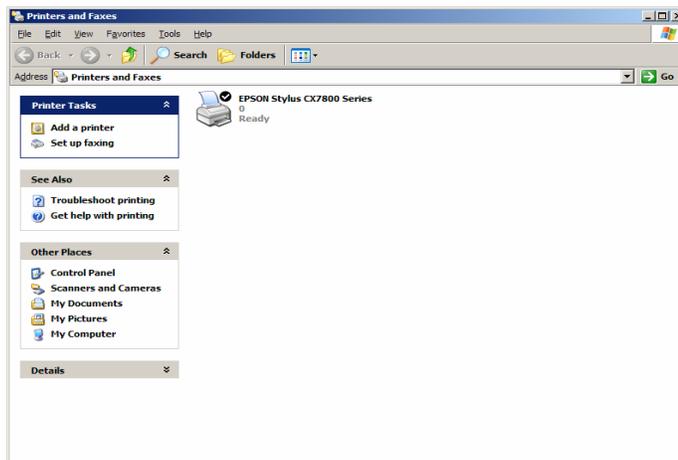

Choose **Update Driver**.

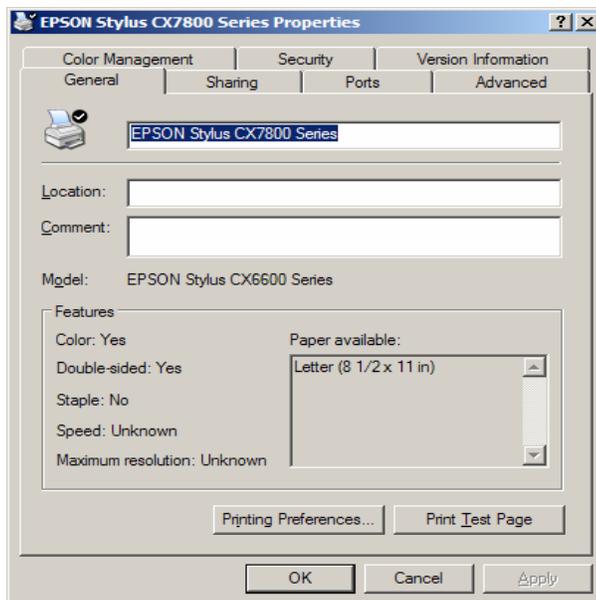

Follow the instructions to install the driver that was downloaded.

Choose **Start > Printers and Faxes**.

Right-click **All-in-one Printer/Scanner**, and then click **Properties**.

Click the **Print Test Page** button.

## Step 5

Place a picture or document in the upper left corner of the scanner, face down.

Double-click the **Epson Scan** icon on the desktop or open the **Epson SmartPanel** using the **Start** menu.

Scan the image.

Print the scanned image.
