# 5.4.2 Lab: Install Windows XP

#### Introduction

Print and complete this lab.

In this lab, you will install the Windows XP Professional operating system.

#### **Recommended Equipment**

The following equipment is required for this exercise:

- A computer with a blank hard disk drive.
- Windows XP Professional installation CD.

#### Step 1

Insert the Windows XP installation CD into the CD-ROM drive. When the system starts up, watch for the message "Press any key to boot from CD..".

If the message appears, press any key on the keyboard to boot the system from the CD. The system will now begin inspecting the hardware configuration. If the message does not appear, the hard drive is empty and the system will now begin inspecting the hardware configuration.

The Windows XP Professional Setup screen appears. During this part of setup, the mouse will not work, so you must use the keyboard. On the Welcome to Setup page, press **Enter** to continue.

#### Step 3

The "Windows XP Licensing Agreement" page appears. Press the **Page Down** key to scroll to the bottom of the license agreement. Press the **F8** key to agree to the license.

Vindows XP Licensing Agreement
END-USER LICENSE AGREEMENT FOR MICROSOFT SOFTWARE WINDOWS XP PROFESSIONAL EDITION SERVICE PACK 2
IMPORTANT-READ CAREFULLY: This End-User License Agreement ("EULA") is a legal agreement between you (either an individual or a single entity) and Microsoft Corporation or one of its affiliates ("Microsoft") for the Microsoft software that accompanies this EULA, which includes computer software and may include associated media, printed materials, "online" or electronic documentation, and Internet-based services ("Software"). An amendment or addendum to this EULA may accompany the Software. YOU AGREE TO BE BOUND BY THE TERMS OF THIS EULA BY INSTALLING, COPYING, OR OTHERWISE USING THE SOFTWARE. IF YOU DO NOT AGREE, DO NOT INSTALL, COPY, OR USE THE SOFTWARE; YOU MAY RETURN IT TO YOUR PLACE OF PURCHASE FOR A FULL REFUND, IF APPLICABLE.
<ol> <li>GRANT OF LICENSE. Microsoft grants you the following rights provided that you comply with all terms and conditions of this EULA:</li> </ol>
1.10Installation and use. You may install, use, access, display and run one copy of the Software on a single computer, such as a workstation, terminal or other device ("Workstation Computer"). The Software may not

Select the hard drive or partition on which Windows XP will be installed. Press **Enter** to select "Unpartitioned space", which is the default setting.

The following unpartitioned	list shows the existing partitions and
	space on this computer.
Use the UP and	DOWN ARROW keys to select an item in the list.
<ul> <li>To set up</li> <li>To create</li> <li>To delete</li> </ul>	p windows we on the selected item, press fmith. e a partition in the unpartitioned space, press C. e the selected partition, press D.
16379 MB Disk (	0 at Id 0 on bus 0 on atapi [MBR]
Unpart	itioned space 16379 MB

#### Step 5

Press **Enter** again to select "Format the partition using the NTFS file system", which is the default setting.

Windows XP Professional Setup erases the hard disk drive, formats the hard disk drive, and copies the setup files from the installation CD to the hard disk drive. This process should take between 20 and 30 minutes to complete.

Vindows XP Professional Setup	
Please wait while Setup formats the partition C: Partition1 [New (Raw)] 16370 MB ( 16370 MB free) on 16379 MB Disk 0 at Id 0 on bus 0 on atapi [MBR].	
Setup is formatting 35%	

#### Step 6

After the formatting process, Windows XP restarts and continues with the installation process. At this point, the mouse can be used to make selections. The "Regional and Language Options" page appears. Click **Next** to accept the default settings. Regional and language options can be configured after setup is complete.

The "Personalize Your Software" page appears. Type the name and the organization name provided by your instructor. Click **Next**.

Туре	your full name a	and the name of your company or organization.
Nam	e:	Tony Allen
<u>O</u> rga	nization:	Contoso, Inc.

The "Your Product Key" page appears. On this page, type your product key as it appears on your Windows XP CD case. Click **Next**.

## Step 11

Windows XP Professional Setup may take about 25 minutes to configure your computer. Your computer will automatically restart when the setup program is complete. When the "Display Settings" dialog box appears, click **OK**.

# Step 12

When the "Monitor Settings" dialog box appears, click OK.

The final phase of Windows XP Professional Setup begins. On the "Welcome to Microsoft Windows" page, click **Next**.

## Step 14

On the "Help protect your PC screen", select "Help protect my PC by turning on Automatic Updates now". Click **Next**.

Windows XP will now check to make sure that you are connected to the Internet. If you are already connected to the Internet, select the choice that represents your network connection. If you are unsure of the connection type, accept the default selection, and click **Next**.

## Step 16

If you use dial-up Internet access, or if Windows XP Professional Setup cannot connect to the Internet, you can connect to the Internet after setup is complete. Click **Skip** to continue.

Windows XP Professional Setup displays the "Ready to activate Windows?" screen.

If you are already connected to the Internet, click **Yes**, and then click **Next**.

If you are not yet connected to the Internet, click No, and then click Next.

After setup is complete, Windows XP setup program will remind you to activate and register your copy of Windows XP.

♣ Windows <sup>™</sup>	
Ready to activate Windows?	
You don't need to give your name or other personal information when you activate Windows.	
If you wait to activate, you can still use Windows, but you will receive periodic reminders. After 30 Windows before you can continue to use it.	
Microsoft is committed to your privacy. For more information, read the Windows Product Activatio	n Privacy Statement
Yes, activate Windows over the Internet now
